# DIRECTORY OF INDIAN COPPER INDUSTRIES

11th Edition, 2023

This directory lists large number of Indian industries connected with manufacture of copper and its alloys in various forms, with their contact details including telephone numbers, e-mail IDs, facilities available and the range of products. The products include Refined Copper, Copper Alloys, Master Alloys, Castings, Forgings, Rolled Products, Extruded Products, Drawn Products, Powder Metallurgical Products, Fabricated Products, Wires, Cables / Conductors etc.

It is a comprehensive guide which will be extremely useful to :

- Users of copper and copper alloy products
- Manufacturers of equipments & machineries used in copper based industries
- Suppliers of various consumables for melting, casting, rolling, forging, extrusion, drawing, cable / conductor manufacturing, etc.
- Testing equipment manufacturers/suppliers
- Traders of copper based products
- Scrap dealers
- Manufacturers of copper based products
