

## **INDIAN COPPER DEVELOPMENT CENTRE**

invites you to the  
**ICDC WEBINAR**

on

### **" Latest Advancements in the Lubrication Technology for Copper Wire and Tube Manufacture"**

Date : 26<sup>th</sup> November, 2021 (Friday)

Time : 2.30 – 4.30 pm (IST)

**SPONSOR**

**Metalube Private Ltd.**

#### **OBJECTIVE :**

Lubricant plays very important role in copper wire and tube drawing. Proper usage of lubricant improves die life, increases drawing speeds, reduces dust generation and ensures superior & bright surface finish of the drawn wire & tube.

The OBJECTIVE of the Webinar is to listen to the domain expert of Metalube Ltd. – one of the pioneers in this field and interact with him on selection, usage, maintenance and technological advancements in the field of lubricants for copper wire & tube drawing.

#### **SPEAKER :**

Mr. Albert Molloy, Global Product Manager (Wire, Cable and Tube Business),  
Metalube Ltd., UK

Will speak on

*“TOTAL FLUID MANAGEMENT ... The Essential Factor if Optimum Life and Performance of the Latest Advancements in the Lubrication Technology for the Copper Wire and Tube Sector are to be Achieved.”*

#### **HOW TO PARTICIPATE :**

##### **THERE IS NO PARTICIPATION FEE**

However, interested participants need to confirm in advance by returning the attached Registration Form by 24<sup>th</sup> November, 2021.

LINK for participation will be sent to the registered participants only.
